

As the Philippine national reinsurer, we:

Promote and develop a strong national insurance industry and support its integration in the country's economic and social development.

Achieve a higher and sound national risk retention by developing a well-coordinated and efficient machinery in reinsurance. In this regard, we have launched the country's first industry-backed reinsurance facilities for sabotage & terrorism, financial lines, and surety.

Participate in national, regional, and international public-private partnerships to further maximize regional retention, promote the growth of the insurance industry, and build capabilities of insurance professionals and other local stakeholders, such as those in government and the academe.

In 2022-2023, Nat Re was recognized with the:

Asian Reinsurer of the Year - Bronze Award

Insurance Asia Awards 2023

Strategic Partnership of the Year Award

Insurance Asia Awards 2023

Outstanding CEO of the Year Award

InsuranceAsia News Country Awards 2023

2 Golden Arrows for Good Corporate Governance

Institute of Corporate Directors

The leading local reinsurer in the Philippines and a trusted partner in other emerging Asian markets.

Reinsurance Solutions for Emerging Markets

With our knowledge of the local market stemming from more than four decades of on-the-ground presence, and our strong collaboration with domestic and international insurance industry stakeholders, we can help you grow, manage risks, and thrive in the long term.

www.nat-re.com

Nat Re is the **only professional domestic reinsurance firm in the Philippines.**

We have **490 treaties with 190 partners globally**

**Life and Non-Life cedants for underwriting year 2022*

We foster collaborative relationships by striving to genuinely understand the needs of our clients and by formulating winning solutions so our partners can achieve their roadmaps to competitiveness.

Our Non-Life Business

We offer a comprehensive range of reinsurance arrangements covering motor, property, casualty, marine, and surety. We offer tailored solutions to help our clients manage their risks and grow their portfolio through treaty and facultative reinsurance programs, as well as provide support for the development of insurance products and services.

We promote the development of local insurers by providing a mechanism for the distribution of risks to allow companies to maximize retention and reduce portfolio volatility.

Through our established local presence, knowledge of regulations, and familiarity with market players and practices, we are able to provide global reinsurers with an efficient platform for access to the local market for the distribution of products and services, deployment of underwriting capacity, and delivery of related services to local insurers.

Our Life Business

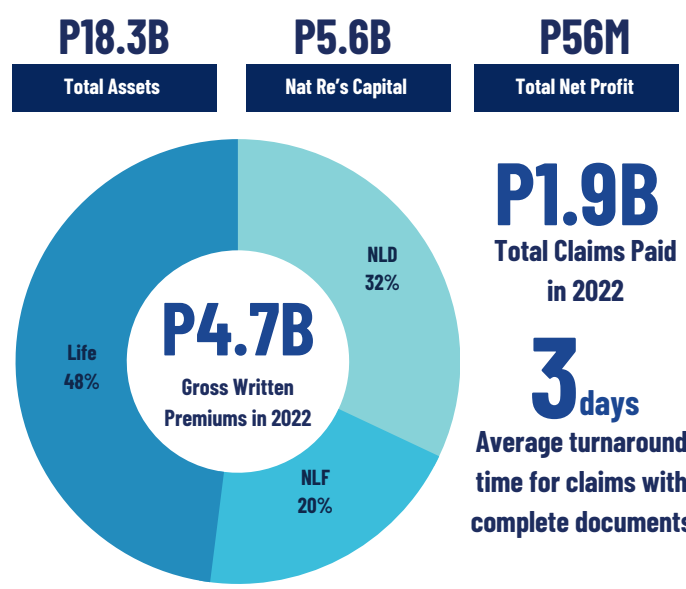

We offer traditional reinsurance of mortality and morbidity risks, medical reinsurance, catastrophe, and coinsurance, and specialize in group insurance where credit life and employee benefit lines dominate.

We help our clients enhance existing products or develop new products for new markets or distribution channels. We tailor-fit our pricing to match the appropriate underwriting approach of our clients' chosen distribution or market.

Other services for our clients include helping create marketing plans, and build underwriting and administration capabilities.
