GOVERNANCE REPORT (ACGR)

Section 8 – SPECIAL PROVISION FOR NON-LIFE INSURANCE AND PROFESSIONAL REINSURANCE COMPANIES.

All non-life insurance and professional reinsurance companies are mandated to provide additional information on the companies' policies and programs on its participation in the Philippine Catastrophe Insurance Facility, if applicable.

In compliance with the above requirement, we present below the role/participation of Nat Re in the Philippine Catastrophe Insurance Facility.

The IC, PIRA and Nat Re signed a MoU in January 2020, agreeing on operationalization of this proposal and are currently working to detail the implementation plan and technical requirements of setting up the PCIF.

The Facility will be **managed and operated by Nat Re**. Under the revised program, participating non-life insurance companies shall cede 25% of each and every earthquake risks they write up to a maximum cession per risk of 50 million pesos to Nat Re. Nat Re in turn shall pool the ceded earthquake risks and cede a share to participants who decide to subscribe or take a share of these pooled risks. Both the cessions to Nat Re and the corresponding retrocession to subscribing companies shall be based on the agreed technically sustainable rates. The pooled risks ceded to subscribing companies, shall then be protected by an excess of loss (XOL) reinsurance program placed with the global reinsurance market. To ensure the financial capability of the Facility, subscriptions of participating companies shall be backed by Security Deposits in the form of government securities held in trust by Nat Re.

An **Oversight Council** will be the main governance structure, composed of representatives from the participating companies, the PIRA Executive Director and a representative from Nat Re. The Council will be responsible for setting operating policies and procedures, pricing sustainability, underwriting policy, and reinsurance cover.

Last April 25, 2025, a meeting was called to finalize the commitment of the participants. The next steps include updating the data on earthquake exposures, putting the common account XOL cover in place and signing the required agreements. The Facility is targeted to start this July 1.
